COMPARISON - TSS/LB WITH LOGISTICS STAFFS IN AREA DIVISIONS

Of the 3,375 requisitions (FY 1959) processed [redacted] by TSS/LB, 1,835 are considered similar to work performed by Area Division Log Offices, i.e., this quantity of requisitions was received from the TSS Technical Divisions which required limited coordination compared to direct field requests and other field requests transmitted by Area Divisions. On the basis of 4.8 TSS/LB positions (TSS/LB proportionate share of personnel based upon a ratio of [redacted] for each Division Logistics position), an average of 31.8 requisitions per person per month would have resulted.
